FRENCH LAUD YANKEE FLYERS; **BRITISH AMAZED BY AMERICANS**

U. S. Aviators Continue to Distinguish Themselves, Says Paris, While London Officers Praise Fighting Qualities.

WASHINGTON, June 12 .- Details of exploits of American aviators in recent operations on the French front are given in an official despatch to-day from France. The message says:

"The American aviators in the French army have continued to distinguish themselves in the course of the latest operations. The aviator David E. Putnam of Brookline, Mass., brought down three enemy machines and has been mentioned twice in the order of the day. The total of his victories amounts to six

"Putnam has already received the Military Cross and has been promoted sergeant aviator in the French army. He has not yet received his transfer into an American aviation unit. Lieut. Sewall, after a long fight, brought down a German biplane. The aviators Stanley and Veil have each carried off a victory."

AMERICANS AMAZE BRITISH.

LONDON, June 12 .- The following estimate of the fighting qualities of American troops was expressed to-day by two high officers of the British Staff who spoke from personal observation:

"The way the Americans have developed as fighters is one of the most amazing features of the war.

"Those engaged in the present and last offensive were placed beside a French corps d'elite. It was their first experience in a big batfle. The Americans fought as superbly as the crack veteran French corps beside them, displaying all the finest fighting qualities-dauntless courage, stubborn tenacity, coolness, initiative and resource.

"The Americans will do even greater things than were expected 250,000 U. S. TROOPS of them.
